

Lindbergh Demands Truth and Justice From Harold Ickes

Writes to President in Reply to Speech by Cabinet Member

New York, July 17—(AP)—Charles A. Lindbergh today advised President Roosevelt that he had no connection with any foreign government, that he received a German decoration while serving the American embassy and declared that he had a right to an apology from Secretary of the Interior Ickes for certain "statements and implications."

In a letter to the President, Lindbergh offered to open his files and testify before any committee appointed by the President to answer any charges that may be made against him.

He declared, however, that unless charges were made and proved, he felt he had the right to "expect truth and justice from the members of your cabinet."

Saying that he wrote as an American citizen, Lindbergh, who recently resigned as colonel in the Air Corps Reserve, wrote:

"For many months, and on numerous occasions, your Secretary of the Interior has implied in public meetings that I am connected with the interests of a foreign government, and he has specifically criticized me for accepting a decoration from the German government in 1938.

At Ambassador's Request

"Mr. President, is it too much to ask that you inform your Secretary of the Interior that I was decorated by the German government while I was carrying out the request of your ambassador to that government? Is it unfair of me to ask that you inform your secretary that I received this decoration in the American embassy, in the presence of your ambassador, and that I was there at his request in order to assist in creating a better relationship between the American embassy and the German government, which your ambassador desired at that time?"

Ickes in a radio address here Monday night asserted that Lindbergh's "passionate words are to encourage Hitler and to break down the will of his own fellow citizens to resist Hitler and nazism." He criticized the fiercest attitude toward the Nazi invasion of Soviet Russia and referred to Lindbergh as "the Knight of the German Eagle."

Makes Letter Public

"Mr. President," Lindbergh said in his letter which he made public from his home at Lloyd Neck, Huntington, N. Y., "if the statements of your Secretary of the Interior are true, and if I have any connection with a foreign government, the American people have a right to be fully acquainted with the facts. On the other hand, if his statements and

24 Illinois Plants Will Be Forced to Close in 90 Days

Chicago, July 17—(AP)—Twenty-four Illinois manufacturing plants producing goods for private consumption face the prospect of closing within 90 days for lack of materials and equipment, the state executive committee for coordination of labor supply and defense training agencies reported today.

The plants employ 3,569 workers. Having no defense orders, the plants cannot obtain priority on needed raw materials and equipment.

In Thirteen Cities

Companies already preparing to close are situated in 13 cities—Aurora, Bloomington, Canton, Chicago Heights, Danville, Galesburg, Harvey, Kankakee, LaGrange, Mt. Vernon, Springfield, Waukegan and Chicago. The executive committee declined to identify the companies.

The firms manufacture road machinery, oil burners and gas stoves, heating apparatus, overalls, pianos, livestock equipment, kitchen utensils, electrical units for refrigerators, telephone equipment, clock and watch parts, outboard motors, railway cars, aluminum alloys and castings, stampings, metal plating and lighting fixtures.

The executive committee is composed of the administrative heads of the state department of labor, division of placement and unemployment compensation, NYA, CCC, WPA, state and local relief agencies, the state board for vocational education, local boards of education, and certain accredited colleges receiving Federal funds for defense training.

"Yoo-Hoo"

Springfield, Ill., July 17—(AP)—You can't even "yoo hoo" at a bull these days, if the experience of Tom Connors and George Minnearch may be used as a generality—not even from the vantage of a boat in mid-stream.

Connors, a local restaurant man, said that while he and Minnearch were fishing in the Sangamon river near Greenville, Ill., they noticed a bull regarding them from the river bank.

"Yoo-hoo," called Minnearch.

The bull plunged into the river and made toward the fishermen's boat. The fishermen piled oars, and outdistanced their attacker.

Managing Officer at Anna Hospital Succeeds Harmon

Editor's Note—Henry B. Knowles, who has been made acting managing officer of the St. Charles School for Boys, was formerly assisting managing officer at the Dixon state hospital.

Springfield, Ill., July 17—(AP)—State Welfare Director Rodney H. Brandon announced today that Henry B. Knowles, managing officer at the Anna state hospital, would be installed July 20 as Acting Managing Officer of the St. Charles School for Boys.

Knowles will serve as temporary successor to William T. Harmon, present St. Charles managing officer who has resigned effective Sept. 1.

Harmon may remain at the training school for several weeks, Director Brandon said, or until such time as he "wants to leave." The welfare director said Knowles would, however, take over administration of the school as acting managing officer, and that he would serve until Harmon's permanent successor is chosen.

The decision of state officials to replace Harmon immediately came just four days after the latest of several violent crimes committed by St. Charles parolees—the slaying of Mrs. Margaret Jung, 37, wife of a Woodstock, Ill. farmer.

Seek Permanent Manager

Brandon described Knowles as a veteran welfare department administrator who has functioned in recent years as a "trouble shooter" at several institutions. He has been at the Anna hospital as acting managing officer since 1939.

Governor Green disclosed yesterday that the appointment of a new temporary managing officer of the training school was under consideration, indicating the Knowles transfer was made with the governor's approval.

Director Brandon said the special advisory committee which has been studying the administration of the training school now is engaged in a search for a permanent managing officer of the school. The advisory committee is headed by Harrison Dobbs, University of Chicago professor of sociology.

Brandon said the man to be recommended by the Dobbs committee probably would be from outside the state—an experienced executive who has had no prior knowledge of the administrative methods which have been followed at the training school for boys in recent years.

Chinese Convict in Prison Kills Heckler

Joliet, Ill., July 17—(AP)—George McKerney, a 200-pound Negro convict from Cook county died in the Stateville hospital last night from head injuries received when Charles Jung, a Chinese prisoner from Chicago, used judo jitsu as an answer to prolonged heckling.

Jung is held in the penitentiary's detention ward. The two prisoners had worked side by side in the prison laundry.

No Aluminum, No Pie

Punta Gorda, Fla., July 17—(AP)—C. O. Coleman, president of the Kiwanis club here, urged all Kiwanis members to cooperate in the aluminum recovery drive and warned them, regarding yesterday's club meeting:

"No aluminum, no pie." Every member brought aluminum except one. He brought a pie.

Strike Riots at New Jersey Plant Bring Call to Governor for Troops

Bendix, N. J., July 17—(AP)—At least six persons were injured today as police clashed with several hundred men and women who stoned automobiles and prevented day shift workers from entering the plant of Air Associates, Inc. Police used tear gas and fired revolvers into the air to disperse a throng that closed in on a bus carrying about 35 plant workers. Automobiles were drawn up to block the only road into the plant and left there when the crowd retreated several hundred yards across tracks of the New York & New Jersey railroad.

Reporting local authorities were unable to cope with the situation. Sheriff William R. Browne of Ber-

Wesolik Confesses Wrench Murder of Benefactor Monday

St. Charles Parolee is Captured on Streets of His Home City

Belleville, Ill., July 17—(AP)—Cool, showing no signs of remorse, 16-year-old Richard Wesolik calmly awaited transfer to McHenry county today to face charges of murder in the bludgeoning of Mrs. Margaret Jung, 37, wife of a Woodstock farmer.

Chief of Police Eugene LePere said the frail, bespectacled youth, a parolee from St. Charles School for Boys, readily admitted that he had killed Mrs. Jung Monday.

Acting on a tip, officers picked up Wesolik on a Belleville street last night. Accompanied by his brother Frank, the youth told officers he was on his way to give himself up. Chief LePere stated.

"Young Wesolik was very, very cool while confessing to the murder," LePere related. He showed no remorse. He went over details of the crime very calmly.

"Richard appears to be an intelligent youngster. Apparently his violent temper got the best of him."

The youth's arrest culminated a state-wide search in which farmers rode down the furrows in their fields as an airplane winged low overhead in an attempt to ferret out the suspect.

Out Hour Too Late

Wesolik said he killed Mrs. Jung, LePere stated, after he was reprimanded for getting in late the night before.

Wesolik related that Sunday night he declined to accompany the Jungs to visit relatives, going to a movie instead. The family was home when he returned, and fearing a scolding for being out an hour over the time allowed by his parole, Richard stayed in the barn until 2:50 a. m. then he attempted to steal to his bedroom. The Jungs intercepted him and reprimanded him for staying out late.

Confronted by the Jungs the next morning, the youth said he was again reprimanded and Mrs. Jung hinted he might be returned to St. Charles.

"That made me mad," LePere quoted the youth as saying. "I waited until Mr. Jung drove off to town and then, with a wrench in my pocket, I followed Mrs. Jung to the milk house.

Victim Turned, Screamed

"The wrench stuck in my pocket. She turned toward me and screamed. I got it out and hit her. I guess I hit her 14 or 15 times."

Wesolik said he then changed clothes and went to Huntley. From there he hitch-hiked to Belleville, doing chores on farms.

Question Suspect on Robbery in Lee

Sheriff Gilbert Finch was in Wheaton today with a prisoner, who has been held in the DeKalb county jail at Sycamore, who is to submit to a lie detector test. The suspect was reported to have been arrested in DeKalb several days ago on an intoxication charge and was sent to the jail at Sycamore. Reports at the local sheriff's office today stated that the man was suspected of having broken into and robbed the building housing the bowling alleys at Lee last April.

The Lee county sheriff was in Sycamore yesterday afternoon and questioned the suspect, who denied being implicated in the Lee robbery and consented to accompany Sheriff Finch to Wheaton today to submit to a lie detector test.

On the night of the robbery at Lee the bowling alley proprietor succeeded in obtaining several numbers of the license plate of the car used by the robbers, and this information was circulated to police and sheriffs throughout northern Illinois. The car was seen on the streets of DeKalb several days ago and was watched until the driver arrived, when he was placed under arrest.

gen county asked Governor Chas. Edison to send state police. "I expect to get them," Browne said. State law provides that the troops cannot be used in labor disputes unless local and county officials are unable to preserve order. Police unsuccessfully asked the crowd to leave the railroad property and avoid possible damage to the nearby Hasbrouck Heights passenger station. Picketing began Saturday by members of the United Automobile Workers of America (CIO) in a dispute with the company over dismissal of nine sheet metal workers.

Production to Start Soon at Munitions Plant in Tennessee

Milan, Tenn., July 17—(AP)—Shells are due to start rolling off the assembly line of the army's new \$20,000,000 munitions plant here August 10—only six months after construction started.

The war department said one shell-loading "line," producing 25 per cent of the plant's planned capacity, would start on that date, six weeks ahead of schedule.

Figures on plant capacity and the type of shells to be produced are army secrets. It is known, however, that there will be five shell-loading lines at the two-unit project, a covering a 50 square mile area.

The plant is one of the first five authorized under the current defense program.

Requisition Power Asked to Get Plan for Secret Weapon

Report Inventor Makes Exorbitant Demands for New Type Gun

Washington, July 17—(AP)—Reports of a new secret weapon for the nation's land forces cropped up today in connection with the administration's property seizure bill as congress pressed ahead on two other pieces of emergency legislation—the new \$3,504,400,000 tax measure and a sweeping price stabilization proposal.

The army's inability thus far to obtain the right to manufacture the reported secret weapon was said to have been described to the senate military committee as a pressing reason for quick approval of the property seizure legislation.

Some committee members said they were informed the war department was experiencing considerable difficulty in obtaining detailed plans for the weapon described as a type of gun.

The inventor, the committee said, was represented as demanding an extraordinarily large sum before he would make detailed drawings available.

Under terms of the proposed legislation these plans could be seized, and a valuation set on them by the president. If the inventor declined to accept this figure, he would be paid 75 per cent of the amount the president fixed and could appeal to the courts to set a final price.

See Many Revisions

Meanwhile, far-reaching revisions were predicted in the terms of the latest draft of the property seizure measure, the third to be submitted to congress. Majority Leader Barkley said he would seek to expedite its consideration. Representatives of the war and navy departments and the office of Emergency Management were under instructions to submit to the committee today a compromise version eliminating some features of a White House-sponsored draft which encountered objections from members yesterday.

Chairman Reynolds (D-NC) said that the White House version, which would permit the president to requisition "any property" he deemed necessary for defense, was too broad. He and Senator Austin (R-VT) said they

Harry Hopkins Arrives In Britain Today

London, July 17—(AP)—Harry Hopkins, supervisor of the lend-lease program, arrived today at a northern British air base after flying the Atlantic in an American plane. He arrived a few hours later in London.

Hopkins, who visited Britain last winter, was met by W. Averell Harriman, American co-ordinator of aid for Britain, who only recently returned from a tour of the middle east.

Besides talks with Harriman, a conference with Lord Beaverbrook, British minister of supply, to discuss top-speed production of tanks was believed to be high on Hopkins' program.

Youth Who Is Charged With Having Teeth Pulled, In Army Now

Concord, N. H., July 17—(AP)—A youth who allegedly had his teeth pulled to escape the draft today was ordered into the army.

Brig. Gen. Charles F. Bowen, state selective service director, said the man had his upper teeth extracted between the time of his physical test and his arrival at the induction station. When he reported he was deferred. This deferment later was rescinded. Gen. Bowen said, on the grounds his "teeth had been extracted with deliberate intent to evade military service."

Strike Threat

Dayton, O., July 17—(AP)—I. E. Baker, a former state senator and president of the Farmers' Protective Association, said today that his organization would "strike and starve out the nation" if the government won two suits on file here challenging validity of wheat marketing quotas.

"We will refuse to sell and refuse to raise the crops that feed the nation," Baker asserted before a meeting of farmers at nearby Germantown. "The industries of the nation have gone on strike to protect rights less vital than those at stake in this fight."

Suits contesting the right of the Agricultural Adjustment Administration to fix quotas and penalize excess wheat at 49 cents a bushel were filed in federal court Monday by two southwestern Ohio farmers.

Alleged Killer of Two Suffers Heart Attacks at Trial

Watsela, Ill., July 17—(AP)—Robert Fiester, 55, suffered a second heart attack today in the courtroom in which he is being tried for murder.

He was placed on a cot, under the care of Dr. E. F. Herdian, a defense witness, while the trial continued with the summoning of rebuttal witnesses.

Fiester is charged with murdering his niece, Royale Hinkle, 26. Seated at the attorney's table, he had been questioned a few minutes on cross examination when he slumped forward. The defendant revived and the cot was brought into the room.

Fiester's first heart attack came soon after the prosecution started questioning him yesterday.

Jurors and spectators strained forward to catch every word. He told again how he had found the bodies of the girl and her fiancé, Lowell Gray, 25, the morning of March 28 in a bedroom of the farm home all three occupied near here. Both had been slain with a rifle. But, the defendant testified, he wasn't the slayer.

Then State's Attorney A. Fred Kendall took over for a sharp cross examination.

Answered Few Questions

Fiester answered a few questions. Suddenly he slumped over in the witness chair. He had been stricken with an attack of heart disease.

Surprised court attaches rushed the 55-year-old farmer to the Iroquois county hospital where attendants said his condition was serious. A deputy sheriff stood guard.

Friends of the accused man, who has been held in jail for about four months, said he had suffered a heart disease several years.

Before his collapse, Fiester said that on the night of March 27 he left home in the midst of an argument, with Gray accusing Miss Hinkle of "running around with other men in Peoria." Previous defense witnesses had testified that Fiester and the girl had been on friendly terms.

Fiester testified that he went to

Cook Co. Officials Rebuked by Green

Springfield, Ill., July 17—(AP)—Governor Green delivered a sharp rebuke to Chicago and Cook county officials for "failure to meet their obligations out of current income," and vetoed a bill which would have authorized without referendum a \$4,000,000 bond issue to pay court costs already incurred by the county in the Chicago Municipal court.

The measure, sponsored by Senator Richard J. Daley (D-Chicago), was said by the governor to represent "a reprehensible practice in government, that of incurring debts in the hope that a bond issue can be floated to pay them."

"As a protest against uneconomical government," the governor said, "I am compelled to veto this bill."

The governor approved 40 bills passed by the recent general assembly and vetoed three. All but a few of nearly 260 remaining measures awaiting his action were sent to the chief executive's desk by legislative leaders today.

Army Expected to Take Greater Part of Men Involved in Tonight's Draw

Washington, July 17—(AP)—The army is expected to take a much greater proportion of men from the 750,000 selective service registrants involved in tonight's draft lottery than it has been taking from the 16,500,000 registered last year.

This is due, officials said today, to the fact that the new men are only 21 years old, relatively few of them have dependents or hold defense jobs and they are in better physical condition than older men. On the other hand, last year's registrants ranged from 21 to 36, a high percentage had dependents

9,000,000 Fight Decisive Battle on Soviet Front

The War Today!

By DEWITT MacKENZIE
(Telegraph Special Service)

The German thrust through the heart of the main Russian line to the strategic railway center of Smolensk, Napoleonic route to Moscow, and the logical gateway to that city, has created a grave threat not only to the capital but to the structure of the Stalin defenses.

From the bolshevik standpoint the saving grace of the position lay in their continued power of resistance and their claim to have flung the Hitlerian invaders back in a thirty-mile retreat in the Bobruisk sector to the south of the Smolensk battle. There is no indication, however, whether the Reds have the strength to exploit this Nazi set-back.

The situation, so far as can be judged from incomplete reports, is that the Germans have driven a deep and apparently rather narrow salient into the Russian front, enveloping the city of Smolensk, which the nazis this morning claim to have occupied. A spearhead of mechanized units also is said to have raced farther on to within 110 miles of Moscow.

Unless the Russian forces on either side of that salient are disorganized and lacking in striking power, the Germans are taking a chance on having this salient pinched off, thereby leaving their forces in the Smolensk zone surrounded. The Red attack south of the salient likely represents an effort to capitalize this position, but the German command must feel fairly sure of its ground in making such a spectacular thrust.

Heavy fighting also continued

at the northern end of the Stalin line in the German-Finnish drive on Leningrad, and on the extreme south in the Kiev sector, where the nazis are reaching for the golden wheat and other resources of the Ukraine. Strong bolshevik resistance has characterized the terribly bloody fighting in these areas, although Berlin keeps insisting that the Moscowites are on the verge of dissolution.

The Russians have made a startling move in the reintroduction of political commissars into the army, to share responsibility with the military commanders. This system was discarded at the time of the Russo-Finnish war, supposedly because it had proved cumbersome and inefficient.

Any political intrusion on military affairs is, of course, a matter of horror for the general run of army commands the world over. Under such a system it is possible for political officers, who may have little or no knowledge of military affairs, to ham-string the military command. One wonders why the Russians felt impelled to make this change in the midst of this great, and possibly decisive battle.

While the Germans continue their advance, they are progressing with a tremendous expenditure of strength and materials. That is a factor of vast importance to the Russians, who declare that the rolling back of their western defenses and the capture of Moscow would not terminate the struggle, since they would merely pull back behind the Ural mountains and resume the fight. They say their industrial system has been so arranged as to meet just such a contingency.

Everything would appear to hinge on a continuation of the Russian will to resist. There is no indication that this will has been weakened thus far. As the result of the uncertainties of this Russo-German imbroglio we have a major crisis in Tokyo. The Japanese are in an embarrassing position because of

Berlin Hints at An Outstanding Turn in War

By The Associated Press

A "tremendous struggle for a decision" between 9,000,000 German and Russian troops was reported by Adolf Hitler's high command today, and Nazi dispatches claimed what appeared to be a complete 90-mile break through the center of the Stalin line.

Jubilantly hinting at a climatic turn in the 26-day-old campaign, the German high command asserted that the Russians now were throwing their last reserves into the conflict in a desperate attempt to stem the Nazi blitzkrieg.

DNB, the official German news agency, said Hitler's invasion columns, storming through the vital central front guarding Moscow, had captured Smolensk, 230 miles west of the Soviet capital.

DNB also reported that Polotsk, detoured by onrushing panzer spearheads, had been taken by later enveloping tactics.

Precise limits of the 1,100-mile Stalin line are unknown but presumably Smolensk is near the rear or behind the line.

Some reports have said the great man-made barrier, extending from the Gulf of Finland to the Black Sea, was as much as 75 miles deep, with an average depth of about 25 miles. Since the German thrust from Vitebsk, on the west side of the line, to Smolensk represented an advance of some 90 miles, it appeared that the nazis had made a clean breakthrough.

BRING THE COOL OF THE NIGHT RIGHT INTO YOUR HOME!

Why should your home be like a bake-oven when all around you, just waiting to be put to use, is Nature's cool, invigorating night air? Harness that free, fresh air -- bring it into your home -- and you'll keep cool and comfortable during even the hottest weather.

A Night Air Cooling System is one of the simplest cooling methods ever devised -- and it is also one of the most effective. A powerful fan with extraordinary air displacement qualities pulls in a flood of cool night air as it draws out hot, sticky daytime heat -- makes every room seem like a sleeping porch!

KIDNEYS MUST REMOVE EXCESS ACIDS

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have an excess of acids in your blood, your 15 miles of kidney tubes may be overworked. These tiny filters and tubes are working day and night to help Nature rid your system of excess acids and poisonous waste. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause tagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Kidneys may need help the same as bowels, so ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

at the Glidden Memorial hospital in DeKalb where she had been a patient for ten days. Funeral services and burial took place in DeKalb, Monday. His father passed away in 1934.

the country home of F. A. Clark.

Soap Box Races Tonight

Soap box racers will compete on North Sixth street tonight at 8:00 p. m. from Eighth to Tenth avenue. Besides the bicycle race finalists listed above, airplane races will be held near the skating rink at 4 p. m. Saturday afternoon, followed by gas-blown planes, after the contest. Those interested in entering, should notify the Chamber of Commerce, at the office above the Caron furnace store, or by telephone number 305.

School Budget File Open

The elementary school board has adopted a tentative budget for 1941-42 which is on file at the office of the Central school from 9 a. m. to 4 p. m. daily, until July 28. Anyone interested in looking over the details of the budget, may do so.

Results: Preliminary Race

Preliminary bicycle races for boys under 13 years, boys over 13 years, and girls, were held at the high school track at 2 o'clock on Wednesday afternoon. Children under 13 years rode for one-half mile (twice around the track), and the older group rode one mile. Those placed first or second in each heat will compete on Friday afternoon, at the high school track, at two o'clock for prizes being given the three winners in each division.

Those in the two leading places in each heat, Wednesday afternoon, qualified to enter Friday's race, are: Boys under 13 years: Ralph Harris, Lloyd Kunde, Vernon Butler, John Wendling, Dick LeBeau, Robert Bruell, Billy Bob Remmers, Dale Maxson and Justin Paul Henry. The two latter boys tied, and are both permitted to compete in the finals.

Boys over thirteen years: Harry Kopp, James Townsend, Donald Joesten, John McDermott, and Junior Daub.

Girls' race: Jeanne Conner and Shirley Vaughan.

A Thought For Today

I take pleasure in weakness, in injur-
ies, in necessity, in persecutions, in dis-
tresses, for Christ's sake.—II Corinthian
12:10.

Whose lives the holiest life is fittest
far to die.—Margaret J. Preston.

Drop the Waste!

England's total debt, national and local, last
April 1 was 63½ billion dollars. That of the United
States at the same hour was 67½ billions.

The Taxpayers' Federation of Illinois assumes
that the federal budget next year will be 19 bil-
lion dollars. Of that sum, Illinois will pay about
1½ billions.

That amount, says the federation, "is more
than the combined value of Rockford, Peoria,
Springfield, Rock Island, Alton, Danville, Decatur,
East St. Louis, Cairo, Egin, Kankakee, Evanston,
Joliet, Lake Forest, Freeport, Moline, Oak Park,
Quincy, Waukegan, Wilmette and Winnetka."

This country can afford its billions for defense
only if it eliminates the waste of billions.

The Alaska Road

For more than a year it has been clear that the
Alaska road should be built.

Had it been started promptly, it might almost
have been completed by now. But it is still in the
talk stage.

Russia and Japan, both of the near neighbors
of Alaska on the west, are now at war. Within a mat-
ter of weeks, developments may come in north-
eastern Asia that will make Alaskan defense even
more important than it is now.

Suppose Japan seizes the opportunity, in the
true axis tradition, to stab in the back a Russia
being beaten to its knees by the German onslaught.
Then the Russian aviation and naval bases which
lie almost within sight of American territory in
Alaska would be in Japanese hands. Suppose Ger-
many completely beats Russia, and moves east-
ward to the Pacific; then we would have the nazis
directly across the narrow channel where Asia and
North America say "Hello!" at the Diomed Islands.
Suppose Russia beats Germany, and swollen with
power, turns on Japan, taking over more of east-
ern Asia than she now has, building more bases on
the "short line across the top of the world" that
leads to America?

Any of these things could happen; and none of
them would make Alaska any safer. Our new
Alaskan bases are being rushed, and splendid pro-
gress is being made in equipping them. But the
whole vast territory is almost entirely dependent on
ships for support, both in a military and in a civil
sense. Ships are getting scarce; they may be
scarcer before this war is over.

The Alaska road is being urgently advocated

● SERIAL STORY

MURDER IN CONVOY

BY A. W. O'BRIEN

COPYRIGHT, 1941.
NEA SERVICE, INC.

YESTERDAY, Lieutenant Rol-
lins discovers his "prisoner"
is the same nurse who had attracted
his attention earlier in the day.
She explains she came out on
deck to smoke a cigarette.
Rollins awakes to dis-
cover the convoy is moving out
to sea. The troops are being
given an enthusiastic send-off by
people lined up on shore. Later,
the signal sounds for lifeboat
drill, and Rollins is disturbed to
find the pretty nurse preoccupied
in looking at something through
binoculars.

DEATH STALKS THE DECK

CHAPTER IV

LONG afterwards, the officers
aboard Troopship "T 9" traced
the atmosphere of impending trag-
edy to the evening of sailing as a
mantle of misty gray blanketed
the Nova Scotian coastline and
Canada had been pushed back
over the horizon, leaving only
bleak ocean stretches visible in
the fading light. The lonely set-
ting contrasted unhappily with the
gay departure scenes and, too, the
convoy was running into a steady
increasing swell.

Several "casualties" were miss-
ing from the evening battle. Greg
Rollins had felt a little squeamish,
but a brandy, dry ginger ale and
lemon juice had brought an amaz-
ing recovery.

Lieutenant Harry Miley held out
up to the turkey when, with
napkin to mouth, he rushed from
the mess while his tablemates
roared with laughter.

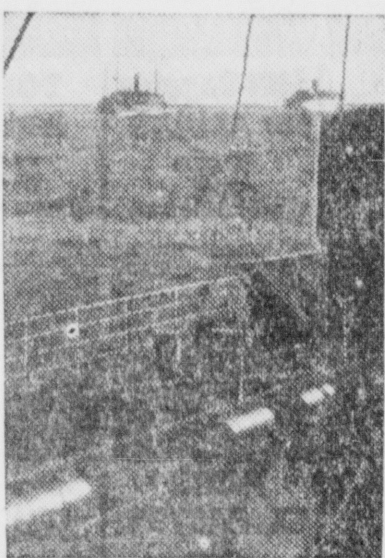

"Bad business—a hangover in
a rolling sea," remarked Captain
Tees to Rollins, "and especially
when you're slated for orderly
officer duty."

Rollins felt he should also vol-
unteer, but he had other plans in
mind—that bridge tournament,
for instance. Thirty-two nurses
had signed the entry sheet and
the same number of officers had
promptly volunteered. Greg was
one of them—and he had taken
the pains to find out a certain
girl's name.

She was Nursing Sister Joan
Davaar, with residence listed as
Ottawa. He felt deep down in his
heart that he was allowing his
imagination to run riot over the
bridge tournament would provide
an ideal excuse for a chat.

HE was among the first officers
to go up to "A" lounge that
evening where the bridge was be-
ing played. One quick glance
found her seated on a divan in
the corner, reading. Rollins clicked
his heels and bowed to the matron
before stepping smartly across to
the girl. She looked up unsmil-
ingly.

"Good evening, Sister," he

The convoy was running into
a steadily increasing swell.

greeted cheerily. "My name is
Gregory Rollins of the Royal
Westmont Regiment and I am
most anxious to be your partner
in this tournament. I am here"—
he patted his hips—"totally un-
armed tonight!"

"I'd be delighted, Lieutenant
Rollins, my name is . . ."
He held up one hand and slipped
out the divan beside her. "Miss
Joan Davaar. I've already sleuthed
out your identity."

She raised her eyebrows in
amused surprise. "And to what
am I indebted for this intensive
Sherlocking?"
"If you weren't so deuced for-
mal in your manner and uniform
and if this were only a college
prom," Rollins came back, "I'd be
tempted to say that I'm quite ir-
responsible where blue-eyed
blondes are concerned—even when,
unfortunately, said interest isn't
reciprocated."

The nurse was a superb com-
panion as well as a polished bridge
player who smoothed over a
number of Greg's obvious mis-
plays. As the evening's play came
to a close they were calling one
another by their first names.
"What do you say to a brisk
turn or two on deck?" suggested
Rollins. "It would certainly
straighten you up."

She looked at him with a twinkle
in her eye. "You mean that
you will actually allow me to walk
on deck tonight. Last time you
chased me indoors with revolver
in hand—remember?"
Greg's brow clouded as un-
pleasant thoughts rushed back.
For instance, he had noticed to-
night that she had refused all
cigarettes.

"Tonight," he replied crisply,

by Chairman Magnuson of the International High-
way Commission, by Delegate Diamond of the Ter-
ritory of Alaska, by Brig. Gen. S. B. Buckner, in
charge of military affairs of the territory, and by
eminent Canadian authorities.

It might well make the difference between
holding this vital outpost of North America and
losing it.

It would be an expenditure, unlike most mil-
itary expenditures, of infinite value in opening
up the territory in time of peace.

It is the kind of job, like building the Panama
Canal, that is right down the American alley.

Well, what are we waiting for?

Black Beauty Vindicated

Probably none of them had read "Black Beau-
ty." That's a story widely read during the horse-
and-buggy era in which Anna Sewell taught kind-
ness to animals, particularly horses. Motorists pass-
ing along the New Jersey road just outside New
York have lived their lives, mostly, on rubber tires.
But the same instincts that animated their fathers
and grandfathers are still in them.

When passing motorists came on a horse, pro-
strate in the shafts of a buggy in the middle of the
highway, and found that it had been mercilessly
driven all day without food or water along the
brutal concrete highway, they furiously pummeled
the heartless drivers. Untrained hands fumbled at
unaccustomed straps of the harness, lifted the ex-
hausted mare to her shaking legs. State police had
to rescue the drivers.

It's good to see that a generation or two of
driving motor vehicles has not dulled men's minds
completely to the sight of brute misery.

Building National Muscle

The number of wage-earners in the United
States today is higher than ever before in the coun-
try's history—51,647,000, according to the National
Industrial Conference Board. Until this estimate
it has been customary to think of the number of
employed workers as roughly 45,000,000. Fewer
than 4,000,000 remain unemployed, according to
the same source, the lowest number since Septem-
ber, 1930.

Such figures are estimates; no one can say
how nearly correct they are. They do suggest,
however, that the national muscles are being slowly
flexed and that the biceps revealed are bigger
and stronger than ever before. It was with man-
hours of work that Hitler built his military ma-
chine; it is this steadily growing volume of Amer-
ican man-hours of work that gives the best hope
of seeing him defeated.

Municipal Microphones

Five American cities have gone into the broad-
casting business, four of them commercially.

That's the newest development to be recorded
by the International City Managers' Association.
Dallas, Jacksonville, Camden, and St. Petersburg
not only operate full-time stations, but sell com-
mercial times and make a profit on it. New York
operates a station, but exclusively for its own pur-
poses.

People have grown accustomed to municipali-
ties operating radio stations for police work, and
for purposes of administration and education in
what the city is doing. But to find them entering
commercial broadcasting introduces a new element
in a field which, though young, is already com-
plex.

News BEHIND THE NEWS

By PAUL MALLON

Washington, July 17 — The
little-known White House machine
through which Mr. Roosevelt duns
O.P.O.E.M., and all the other al-
phabetical defense units, has been
hiding its workings in a passion
for anonymity. But those who
are in it claim that it satisfies
the popular demand for single-
headed control and coordinated
management. Their untold view-
point may explain why Roosevelt
has so long resisted the almost un-
animous outside clamor for a change.

The way the president's personal
defense unit works, they say,
is this:

Harry Hopkins, FRD's right
hand man, is actually presiding
over all defense, although he is
nominally in charge only of the
\$7,000,000 British lend-lease
part of it. In effect Hopkins gives
Knudsen the program for OPM
and all Knudsen does is to work
it out that way.

Under Hopkins is Philip Young,
son of Owen Young, whom Hop-
kins has borrowed from the treas-
ury department. The actual desk
work of coordination is in his
hands. Under him is General
Burns, whose official title gives
him only control of the "office
of Defense Aid Reports." Through
this office however Burns is sup-
posed to be handling the war de-
partment procurement end of the
program.

Also working under Young is
Wayne Coy who has been un-
tentatively edged into control
of the Office of Emergency Man-
agement. He is Paul McNutt's
old Indiana political adviser who
enjoys a reputation at the White
House for aptitude in organiza-
tion. Coy's real job is to keep
Knudsen's OPM apart from Leon
Henderson's price control organ-
ization, although officially his
work is merely the handling of
personnel and burgetary problems
for them.

Flanking this loosely knit out-
fit is Isadore Lubin, the labor
statistician, who is supposed to
coordinate the economic and labor
problems involved.

Beyond these lines, Hopkins has
a cabinet board composed of the
secretaries of treasury, war, navy
and agriculture. He meets with
then as sort of unofficial chair-
man to work out overall policy.

Thus by obscure shifting of
men and their powers, the presi-
dent believes he has accomplished
some degree of reorganization in
the defense setup. It is freely
admitted this personal presiden-
tial machinery has not promoted
100 percent coordination or ef-
ficiency. Its lines are rather fuzzy
and more than concrete. The
new deal is by no means satisfied
with the plan, yet the president
thinks he has accomplished a
greater degree of coordination
than is generally appreciated.

At least this is the official at-
tempt to explain why he has been
loathe to act.

The current curbstone crop of
Washington humor mainly con-
cerns the efforts of the terrible
tempered Mr. Ickes to save gas-
oline. The printable production
along this line includes the fol-
lowing:

"What this country needs be-
fore gasless Sundays is a gas-
less Secretary of Interior."

"Mr. Ickes' estate is 20 miles
out. If he wants to save gas why
doesn't he start by moving into
town."

Editors Note:—Mr. Mallon is
using a brief vacation period
away from Washington to pre-
sent the above information back-
ground material.)

Boy Scout News

Bethel Church Troop.—The Boy
Scout troop of Bethel U. E. church
returned Wednesday evening from
a camping trip along Elkhorn
creek near Penrose. Nine boys
were in the camp with Scoutmas-
ter R. S. Wilson. The group
pitched their tents on Monday
morning and broke camp on Wed-
nesday afternoon. The troop is
now being organized and the char-
ter will be granted soon, according
to a decision of the troop commit-
tee which met last Friday even-
ing, in charge of Scout Walker,
Troop Camp chairman.

The camp reported no injuries,
and the First Aid equipment was
used only for a few scratches.
Three Kayaks were used by the
boys in the creek. Swimming
periods were arranged for each
day. Fishing, hiking, tracking
and other Scout activities occupied
the time. The boys did their own
cooking, three being assigned to
each meal, as cooks, and three to
clean up after the meal. The
camp site was opened to the troop
through the courtesy of the far-
mers who occupy the land.

Plan Welcome for Visiting Air Men in Dixon Aug. 8th

About 30 aidplane pilots and
their guests, who will participate
in the annual Illinois state fair
flight, visiting several airports
throughout Illinois will be wel-
comed to the Dixon Municipal air-
port on the afternoon of Friday,
August 8 and George C. Roberts,
secretary of the Illinois Aeronau-
tical commission will fly to the
Dixon airport next week to meet
with Manager Rinehart Schnell
and President Walter Knack of the
Dixon Chamber of Commerce,
to complete arrangements for the
contestant pilot's visit here.

President Knack is planning a
reception to the flying visitors
at the airport where they will re-
main for about half hour while
on flight from the Lansing air-
port near Chicago to Galesburg
to spend the night. President
Knack and Mayor Slothower will
welcome the pilots of the con-
testing planes and their passen-
ger guests, and Manager and Mrs.
Rinehart Schnell will serve re-
freshments in the hangar.

The annual state fair aviation
contest will start from Spring-
field Thursday, August 7 and af-
ter a two day tour of selected
airports throughout the state, will
terminate at the state fair
grounds on August 9, marking
the opening of the 1941 Illinois
state fair. About 40 planes are
expected to participate in the
state wide aerial tour and the
Dixon airport has been chosen
as the farthest northern air field
in Illinois to be visited during
the trip. Two years ago the air
tour stopped at the Dixon air-
port, about 30 privately owned
planes with their owners or pilots,
guest passengers and flight judges
inspecting the accommodations of
the Dixon field.

Red Cross Appeals To Women of County To Assist in Labors

Much Material on Hand
to Be Made Into Gar-
ments for War-Stricken

While various agencies are urg-
ing public assistance in defense re-
lief programs, many of which have
not come to the attention of Lee
county residents, one agency,
which in many ways has remained
somewhat obscure but intensely
active, continues to function under
the most capable supervision. Mrs.
J. M. McCleary, at her home 516
North Galena avenue, is county
chairman of the Lee County Red
Cross organization, and her hos-
pitable home is the headquarters
for this organization's worthy
work.

During the past few months
small groups of faithful women
workers in various parts of the
county, have converted more than
12,000 yards of cotton and woolen
materials into garments, valued at
more than \$2,500, which have been
shipped to England for Red Cross
war relief in that stricken coun-
try. School children have assisted
in this work and while a great deal
has been accomplished, much
more needs to be done and an ap-
peal was directed today for addi-
tional assistance in all parts of
the county.

Record Shipment

Some idea of the volume of as-
sistance given by a small number
of Lee county women is gleaned
from the record of a shipment
made from Mrs. McCleary's resi-
dence on June 16, which went di-
rect to the Red Cross station at
Jersey City, N. J., there to be
loaded onto transport ships to be
conveyed to England. In this
shipment were the following arti-
cles: 160 sweaters, 540 baby
dresses, 320 blankets, 1,600 di-
apers, 75 women's skirts, 40 bath
robes, 220 jackets, five dozen pairs
babies booties, 80 woolen shawls,
some knitted and 500 wimpies. (A
wimpy is a three cornered piece
of cloth which is used in England
by men, women and children as a
head covering which covers the
ears and ties under the chin.)

In the month of May an order,
almost a duplicate of the above,
was forwarded to England from
the Lee county station, and small-
er consignments were shipped
earlier in the year.

Work to Be Done

In directing an appeal for work-
ers among women's organizations,
the Red Cross unit today urged
the need for the articles which are
to be turned out in Lee county. At
present, 7,682 yards of cotton and
woolen goods and 350 pounds of
woolen yarn will arrive at the lo-
cal station soon to be made into
garments. Today, the local head-
quarters was in receipt of 1,750
yards of cotton goods which is to
be made up into women's and
girls dresses. The above represents
the final consignments of govern-
ment purchased raw materials to
be used by the local Red Cross
unit until another appropriation is
made in Washington to be used in
buying raw goods. The national
Red Cross organization, however,
will provide an ample supply of
materials to keep the program
functioning, it was stated.

Many of the smaller communi-
ties of Lee county are far ahead of
the city of Dixon in the program
of making up these garments. It
was stated today, Compton, Paw
Paw, Ashton, Amboy, Franklin
Grove, West Brooklyn and Ste-
ward, are taking an active part in
the worthy program and some of
these smaller communities are
far ahead of Dixon in turning out
the necessary articles.

Women's Clubs Active

"Women's clubs, for the most
part are carrying on the greater
amount of work throughout the
county", a member of the county
committee reported at the head-
quarters today. "There are many
cases where women obtain the
goods from our central headquar-
ters and take the work to their
homes where in their spare time,
they make the garments. We have
more than 200 knitters working
in Lee county and they are doing
an excellent job as can be seen by
inspecting some of the garments
which have been completed and
returned for shipment."

In connection with this depart-
ment of the program, some inter-
esting facts were given:

In a rural school near Dixon
during the past season the teacher
introduced the Red Cross knitting
project to her students. Several
articles were knitted and the chil-
dren showed great interest in the
work, the boys proving to be more
expert at knitting than the girls.

Another instance was cited,
where a farmer's wife performed
her share of farm chores, her
household duties, cared for her
family and found spare time to
knit 27 sweaters which have been
returned to the central station and
she has applied for more work.

Groups Meet Weekly

A limited number of faithful
women workers gather at Mrs.
McCleary's home one afternoon
each week and fashion such arti-
cles as are in greatest demand.

A large room in Mrs. McCleary's
home has been turned over as a
general store and work room.
Here, huge bolts of woolen goods,
cases of yarn and bales of cotton
cloth waits the application of
worker organizations to be fash-
ioned into articles of clothing. In

HOLD EVERYTHING

"No, wise guys—checkers definitely is not a war game!"

another section of the room are
piled high, completed garments
which are to be packed and for-
warded in the next shipment to
England. Every article bears a
marking of the Lee County Red
Cross chapters, and without a cen-
tral warehouse and work room,
the central headquarters will re-
main at the home of the county
chairman, Mrs. McCleary has been
connected with the Red Cross
work in Lee county for almost 25
years and today is without doubt
its most active and faithful work-
er.

Women's organizations through-
out Lee county are appealed to in
the important task of fashioning
garments for England's war suf-
ferers from the vast stock of raw
materials which are available and
will be distributed upon applica-
tion at the home of Mrs. J. M.
McCleary at 516 North Galena ave-
nue.

Dorothy Chapter Entertains for Grand Officers

Dixon's Dorothy chapter, O. E. S., last night held a reception and initiatory work in honor of the visiting Worthy Grand Matron, Mrs. Minnie Caperton of Chicago and other officers of the state chapter.

Guests from Chicago, Peoria, LaSalle, Rockford, Freeport, Paw Paw and Sublette were included among the 250 persons who attended the reception at the Masonic Temple here.

Included among the other grand officers who visited the local chapter were William A. Reber of Elgin, Worthy Grand Patron, Miss Alvin Van Alven of Chicago, Grand Chaplain; Mrs. Bertha B. Grims of Chicago, Grand Marshal; Mrs. Alice Roszell of Peoria, Grand Organist; Mrs. Bessie Mitchell of Chicago, Grand Adah; Mrs. Anna Heindel of Chicago, Grand Ruth; Mrs. Dora Trapp of Chicago, Grand Esther; Mrs. Claribelle Perry of West Chicago, Grand Electa; Mrs. Lois Lemke of Chicago, Grand Sentinel and four grand representatives and a number of members of the grand chapter and lecturers.

During the initiatory work degrees were conferred on two candidates with Mrs. Harold Emmert as acting Worthy Matron and L. C. Santelman as Worthy Patron. Mrs. Myrtle Bishop was the vocal soloist.

At tables decorated with sweet-peas, the flower of the Worthy Grand Matron, refreshments were served to the guests. Other table decorations included lavender nut cups and pastel candles in the colors of the Worthy Grand Matron.

Included in the guest list were 15 worthy matrons and eight worthy patrons who formed an escort for the grand officers as they approached the East.

TO LEADERSHIP CLASS

Kathryn Hermann of the Alto-Rey club and Corda Rogers of the Wy-Lee club have been selected as the two 4-H girls from Lee county to attend the 4-H Junior Leadership Camp at East Bay, Lake Bloomington, July 28 to August 2.

The purpose of the camp is to give 4-H club members training in leadership that will help to fit them for more effective service in the county 4-H club program. About 300 4-H boys and girls from all over the state will participate in the camp activities.

The girls were selected from a group of outstanding 4-H club girls. They have been in club work several years and have done outstanding work.

TO CONFERENCE

The South Central Nursery school will be closed from July 21 to August 4 while the two teachers, Mrs. Wanda McCleary and Mrs. Dorothy Frost, attend a nursery school conference at Champaign, Accompanying the Dixon teachers will be Miss Mabel Entorf and Mrs. Helen McCaffery, Amboy nursery teachers.

Ellen Bernice Ross Is Bride of Donald Fleuhr

(Telegraph Special Service)

Amboy, July 17.—A very impressive single ring ceremony united Ellen Bernice Ross, daughter of Mr. and Mrs. Roy V. Ross, and Donald B. Fleuhr, youngest son of Mr. and Mrs. A. L. Fleuhr, in marriage Tuesday morning July 8, at the church of the Assumption in Perryville, Mo.

The nuptial high mass was celebrated at 8 o'clock by the parish pastor, Rev. Oscar L. Huber, C. M., and was served by the bride's brother, Raymond Ross, N. C. M., of St. Mary's seminary, and Donald Fallon, C. M., student of St. Mary's seminary, a friend of both the bride and groom, son of Mr. and Mrs. D. F. Fallon formerly of Amboy.

The bride entered the church as the organist, John Matoushek, C. M., student of St. Mary's seminary played Lohengrin's Wedding March and she was given in marriage by her brother, Roy S. Ross, who also served the groom as best man, Diamond Ryan, C. M., of LaSalle, student of St. Mary's seminary, sang the mass singing the "Ave Maria" as the solo at the offertory.

The bride's matron of honor was Mrs. Lucille Woodrow Bey, a friend of the family of Perryville.

Mo. Mrs. Fleuhr was attired in baby blue silk marquisette and wore white accessories and a white picture hat; her corsage was of white gladioli and she carried a white pearl rosary with each bead the shape of a heart which was a gift of the groom. Her attendant was attired in a summer print with matching accessories and also wore a gladioli corsage.

Mrs. Fleuhr is a graduate of St. Anne's parochial school and graduated from the Amboy Township high school with the class of 1937 and is employed as secretary in the office of Attorney E. M. Sullivan. Mr. Fleuhr is also a graduate of St. Anne's parochial school and graduated from the Amboy Township high school with the class of 1934. He has been employed as meter reader in District D of the Illinois Northern Utilities company in Amboy, having recently been transferred to the company's meter department in Dixon where he will take up his new duties after the completion of his vacation, July 21.

The couple returned Friday evening from a week's trip spent in the south and will make their home in Amboy for the present, where their many friends wish both of them much success and happiness. They were accompanied to Perryville by Miss Irene Bloomquist who also attended the wedding.

The Mississippi river has about 40 navigable tributaries.

Betty Putnam Defends Title in Tourney Here

Miss Betty Putnam of Oregon, outstanding golfer who has competed in numerous national tournaments, was individual winner of the Lincoln Highway tournament for women here at the Dixon Country club at the conclusion of the 36-hole event yesterday afternoon. Miss Putnam defended her 1940 title with 26 up on bogey. Miss Gladys Jowett of Clinton, Ia. was runnerup with plus 13.

The Clinton women won the team championship with seven up on bogey and Morrison was second with minus 6. Third was Oregon with minus 10 and following in order were: Rock River club of Sterling minus 17, Dixon minus 19, Princeton minus 36 and Rochelle minus 74.

In the awarding of prizes for flight winners, Mrs. Fritz Allenmang of Morrison won the first flight with plus 13; Mrs. Ruth Gronner of Morrison won the second flight with plus 7; third flight winner was Mrs. Gertrude Warner of Clinton with plus 5.

Miss Jackie Armstrong of Clinton with plus 5 won the fourth flight, Mrs. Helen Stern of Clinton won the fifth with minus 3 and Mrs. Mary Sheldon of Sterling won the sixth flight with minus 8. Mrs. Carl Buchner, Sr. of Dixon won the prize for low putts with 62 for 36 holes.

Birdie winners for the first 18 holes were counted by Mrs. Helen Fike of Sterling with two, Mrs. Fritz Allenmang with one, Betty Putnam with four, Dorothy Leclair of Princeton with one, Mrs. Gronner with one, Mrs. Blanche Dulaney of Clinton with one, Mrs. Betty Snyder of Sterling with one, Mrs. Warner with one, Mrs. Verle Ritchie of Morrison with two, Mrs. Marjorie Barrowman of Dixon with one, Mrs. June Etnyre of Oregon with one, Mrs. Kathryn Rogers of Sterling with one, Mrs. Pat Olson of Princeton with one, Mrs. Ada Putnam of Oregon with one, Mrs. Gunnar Nilsson of Dixon with three.

The Clinton title winners replace Morrison's champions of last season. The tournament will be held next year at Princeton.

Mrs. George Beier and Mrs. Nilsson composed the local committee in charge of the tournament and Pro Ralph Stonehouse was official scorekeeper.

On the first day of the tournament, 55 women enjoyed lunch at the club and yesterday 75 were served.

Talk Price Stabilization

Discussing price stabilization proposals, Barkley said identical bills probably would be ready for introduction in both the house and senate next week, with President Roosevelt sending an accompanying message. Details were being discussed by congressional leader Vice President Wallace, and Price Administrator Leon Henderson.

Opposition to any attempt to put ceilings on prices for cotton, wheat, and corn was promised publicly by Senator Bankhead (D-Ala.). A leader in the powerful bipartisan congressional farm bloc.

The new tax bill was scheduled for consideration by the house ways and means committee today with interest centering on differences between Roosevelt and house tax experts as to the better formula for determining the amount of excess profits taxes corporations should pay.

Wants Declaration

Meanwhile General George C. Marshall, Army Chief of Staff, testified today that there was an "urgent necessity" from a military standpoint for congress to declare a national emergency under which selectees, reserves and National Guardsmen could be retained in service beyond the present one-year period.

From the strategic point of view, the army chief told the senate military committee, the efficiency of the war department and the military forces would be greatly improved if congress would act to clear away present prohibitions against longer service.

At the same time, Marshall told the committee it was absurd to believe he had an American expeditionary force in mind when he recommended continuing in service beyond a year the selectees, National Guardsmen and reserves. Marshall said many persons thought he was "talking about an AEF," when he made his recommendations. "I was not talking about an AEF, inferentially or otherwise," the witness added. "That is an absurdity."

Marshall said he believed "distinctly and emphatically" that the national interest would be imperiled unless the men now in training are retained. He added that he had made his recommendations "from the standpoint of military necessity" and had tried to keep "as wide a separation as possible between military necessity and political considerations."

Guard Unit To Hawaii

Senator Austin (R-Vt.) told Marshall he had heard criticism that the war department had sent selectees to posts outside the United States "in order to force the hand of congress" on legislation lengthening the one-year training period.

"Exactly the opposite has been the case," Marshall replied, adding that he finally had been forced to send a National Guard anti-aircraft unit to Hawaii because no other was available.

Testifying on legislation to lengthen the service of the emergency troops, the general said in reply to questions by Senator Austin that he would much prefer that congress declare flatly that the nation was imperiled, thus giving the war department more "elbow room" in which to work.

"The whole thing that remains," Marshall said, is "is there an emergency?" I say there is and the war department says there is. You gentlemen will have to settle it."

Army "Set Back"

As an example of what he said was the hindrance that often developed through congressional limitations, he said that the army had been "set back very seriously" in development of essential air facilities in Brazil.

Expressing reluctance to mention the country involved, Marshall said that he had been handicapped in cooperating with Pan-American Airways in establishing landing fields and other facilities in Brazil because congress had stipulated, in making \$200,000,000 in emergency funds available to the president, that two-thirds of this money be spent for the army and one-third for the navy.

The same limitation he continued, had delayed development of other airfields in the vital Caribbean area, for three months because of the technicalities involved.

The Chief of Staff declared that "we are concerned with the aggression of military force" built up through long training and participation in actual campaigns.

"Situation Critical"

"We started only last fall," he continued. "We can do a wonderful job. We can render ourselves so strong that all our interests will be safeguarded."

"But to stop in the middle of the procedure would be unwise when the situation as we see it in the war department is so grave."

Saying that "the situation is critical," Marshall added that the war department could not make public all its information regarding current developments.

"If we did," he added, "it might produce an effect like the sinking of the Maine or the Zimmerman notes, and we don't want that."

9,000,000 Fight

(Continued from Page 1)

edged violent all-night fighting in which German and Russian troops contended for mastery of the road to Leningrad.

The battle raged in the Pskov-Porkhov sector, 150 miles southwest of Leningrad. Details were lacking.

In other sectors, no major operations took place and no significant changes in the positions of our troops occurred," the soviet high command declared.

But on the all-important central front, guarding Moscow, a critical hour had struck.

The Russians officially conceded that tank-led nazis legends had broken through to the vicinity of Smolensk. But they made no mention of the fall of the town.

The Germans asserted that protracted rearward resistance by Red army troops in the Smolensk sector had been crushed, and that the nazi advance eastward was continuing swiftly.

On the southern end of the 2,000-mile battlefield, the Germans also reported the capture of Kishinev, capital of Bessarabia.

Location Fixed

Without saying how the battle was going, the soviet communique said very severe fighting took place on the road to Leningrad and Kiev, but fixed Pskov and Novograd-Volynski as the vicinity of the battles. These are the same areas previously mentioned as the center of operations 150 miles from Leningrad and 130 miles from Kiev.

The soviet command reported one victory, declaring that on the front south of Smolensk, the Germans had been swept back in a head-long retreat and an entire tank battalion destroyed in the process.

Bobruisk again was mentioned as the area of battle here, indicating the Germans had been pushed back 30 miles or more from their Dnepr bridgehead at Rogachev and Zhlobin by the soviet counter offensive.

Vast confusion was reported in the Russian rear by Berlin as a result of constant bombings of railways and communications.

Some Berlin estimates said 75 per cent of the soviet air force had been destroyed.

Reds Report New Raids

But the soviet command said its planes still were doing great damage to German tanks and troops at river crossings, and reported new raids on Rumanian towns.

Japanese veterans of the China war were reported being recalled for service, dispatches from Shanghai said, as the leaders of Japan struggled to form a new cabinet to replace that of Premier Prince Fumimaro Konoye which resigned yesterday.

Domei, Japanese news agency, said Prince Konoye was being asked by the emperor to form a new cabinet.

Signs that Germany has her eyes far ahead of current developments were seen in reports from Ankara that the nazis are asking for transit privileges to rush supplies across Turkey to the Caucasus if and when German troops reach there. The report indicated the Germans were concerned with the prospect of forming a new front against the British in Iraq and Iran.

In the British-German air war, RAF bombers again attacked Germany. Germans minimized the results of the raid and said three of the invading planes were shot down. The British said only a small number of German planes attacked Britain.

Lindbergh Demands

Implications are false, I believe that I, as an American citizen, have a right to an apology from your secretary.

"Mr. President, I give you my word that I have no connection with any foreign government. I have had no communication directly or indirectly, with anyone in Germany or Italy, since I was last in Europe, in the spring of 1939. Prior to that time, my activities were well known to your embassies in the countries where I lived and traveled. I always kept in close contact with your embassies and your military attaches, as the records in your state department and war department will show.

"Mr. President, I willingly open my files to your investigation. I will willingly appear in person before any committee you appoint, and there is no question regarding my activities now, or at any time in the past, that I will not be glad to answer.

"Mr. President, if there is a question in your mind, I ask that you give me the opportunity of answering any charges that may be made against me. But, Mr. President, unless charges are made and proved, I believe that the customs and traditions of our country give me, as an American citizen, the right to expect truth and justice from the members of your cabinet."

The War Today

(Continued from Page 1)

Hitlers attack on a country with which they just concluded a neutrality pact, and because forsooth they are not able to forecast the outcome of this struggle.

A highly interesting aspect of the situation is that there seems to be strong opposition in influential quarters to making any move which would involve Japan in conflict with the United States. One would expect Tokyo to pursue its expansionist policy while continuing to try to avoid a direct clash with America or Britain.

The fact that the emperor has called on Prince Konoye again to form a new cabinet may mean a continuation of the prince's previous program of expansion southward. If so this undoubtedly would involve an early effort to secure control of French Indo-China which is at once a source of important supplies and an important military and naval base.

Rescued Nurses, Marines Arrived Today in London

London, July 17—(AP)—Six more American Red Cross nurses and eight U. S. Marines rescued from the Netherlands steamship Maasdam, torpedoed in the North Atlantic last month, arrived in London today.

The nurses were Frances Bacon, Farmington, Mich.; Laurine Smith Hursenlow, Mich.; Mary Ann Sullivan, Boston; Geraldine Shuttleworth, Milton, Mass.; Margaret Malloy, Chicago; and Martha Reis, Wooster, Ohio.

Nine other American nurses who were aboard the Maasdam arrived here July 4. Two of the contingent still are unaccounted for.

The marines, who were accompanied by their commanding officer, Major Walter I. Jordan, joined previous arrivals as fire-watchers and messengers at the U. S. embassy.

Reports say that a bullet-proof glass for warplanes, devised by Aero Engineer Horace Alter, will snub a .50 caliber shot at 100 yards.

Quick Cooling of Canned Corn Halts Flat-Sour Losses

Flat-sour spoilage, commonly occurring in canned corn and beans, is generally caused by heat-loving bacteria, reports Home Adviser Marian Symphon.

This means that Lee county canners who are taking full advantage of the sweet corn and green bean season will want to see to it that their jars of canned food are cooled as quickly as possible and stored in a cool place so the bacteria will not have opportunity to grow.

A poor quality product and flat-sour spoilage also are likely to result when the corn is picked one day and canned the next. Deterioration of the quality of corn is rapid after it is picked, since the sugar content of the kernel quickly turns to starch. For this reason canning of small quantities of corn immediately is advised.

Use of the pressure cooker in canning both corn and beans is regarded as absolutely necessary in view of the fact that botulism poisoning may occur from inadequate processing of these non-acid foods.

Most recent method advised for canning corn is: Corn should be used while in the milk stage, working with small quantities at one time. Husk and silk the corn. To prepare the corn by the whole-kernel method, cut the corn from the cob so that the kernels are whole. Place the corn

Army Experiments With Streamlined Anti-Tank Forces

Camp Forrest, Tenn., July 17—(AP)—An experiment in streamlining its anti-tank forces was started today by the 33rd (Illinois) division in an effort to match the speed and agility of armored troops.

Maj. Gen. Samuel T. Lawton of the 33rd consolidated under a centralized command all weapons designed to combat tanks and airplanes.

The plan, its sponsors contend, will afford mobility to troops heretofore fettered by rules laid down in the static trench warfare of 1917-18.

The experiment for the first time provides anti-tank troops with their own network of vehicular radio for spotting attacking tanks. Previously, such aid was obtained from other branches of the service whenever it was available.

"Experience on European battlefields has shown that our present system of attacking anti-tank weapons permanently to the artillery and infantry regiments a great waste of manpower and fire power," declared Gen. Lawton.

Now Officer Named

The division's anti-tank troops have been placed in a provisional battalion commanded by an anti-tank officer appointed to the division staff. The table of organization includes no such officer at present.

The weapons—75mm. and 37mm. guns and .50 calibre machine guns—may be employed in the battalion as a compared unit or they may be assigned as needed to infantry, artillery and other regiments.

"By making the anti-tank troops more flexible, they can be moved quickly wherever needed, to fight armored troops," General Lawton explained.

"Armored troops don't attack on a broad front such as the old system of anti-tank defense offered," Lawton added. "They pick a weak spot and hit fast; you've got to get your defense into the weak spot before the tanks arrive. That means you've got to have more flexibility and direct command than under the system now in effect."

Resigned Premier of Japan Forming Cabinet

Tokyo, July 17—(AP)—Prince Fumimaro Konoye today received the emperor's command to form a new cabinet to replace that which resigned last night to give way to one more capable of grappling with the "everchanging world situation."

Konoye, who also headed the

retiring cabinet, began assembling a new list of ministers, and authoritative sources said it was expected Emperor Hirohito would be able to install a new government tomorrow.

Among Konoye's first consultations was one with Baron Kiichiro Hiranuma, the strongly nationalist home minister in the out-going cabinet. Observers believed this to indicate that Hiranuma would re-

main in office, continuing the totalitarian domestic program on which the old government embarked.

Weekly Food and Marketing Letter by Mrs. Emily M. Lautz for Dixon Telegraph Readers

The food dollar is the most important one the mother spends. These days she is deluged with suggestions on how to divide her spending, for the Department of Agriculture and Federal nutritionists are determined not to restrict interest in children's diet to the one day, May 1, which was set aside by Presidential decree as Child Health Day.

The director of the Cleveland Child Health Association, Dr. Richard Arthur Bolt, suggests that the food dollar for the growing child be spent this way:

Twenty-five cents for milk products; 25 cents for fruit and vegetables; 10 cents for eggs, lean meat or fish; 20 cents for whole wheat cereals and dark bread, and 20 cents for fats and sugars.

Nutritionists agree that there is no substitute for milk, however some of the daily allowance need not be fresh whole milk. (Each child should get from a pint and a half to 1 quart milk daily.) The cheaper forms such as skin or evaporated, may be used in cooking. Remember that if you do use skim milk, you need to serve plenty of foods rich in the vitamin A that milk fat contains. These may be butter, cold-pressed oil, fresh greens or any fruit or vegetable abundant in vitamin A. Cottage and American cheese are other sources of the daily quota of milk.

Children should have at least one egg a day, unless lean meat or fish is furnished. Liver and kidneys are especially rich in iron and some vitamins. Liver furnishes protein food.

"Mother, may I have some bread and butter?" Doctors are lending encouragement to that familiar wail. Children not only may have it, but should have their bread and butter. It's the doctor's orders, preferably bread and cereal from whole grain products or "enriched" bread. Children in their teens need bread at every meal.

Less popular with the younger set will be medical advice about cod-liver oil. Infants and young children need some kind of fish oil or direct sunshine the year round to provide additional supplies of vitamin D, which even a well-balanced diet does not usually supply in sufficient quantity. During the Winter in a large part of the country, the doctor says children should get at least two teaspoons of cold liver a day to partially make up for the loss of ultra violet rays from the sun.

At least four servings a day of vegetables and fruits are advised. One should be rich in vitamin A.

beet or turnip tops, carrots, collards, spinach, kale, wild greens, rutabagas, yellow turnips, yellow squash, sweet potatoes, apricots and yellow peaches are suggested. Another vegetable or fruit should provide vitamin C: high on this list are citrus fruits, tomatoes, cabbage, greens, turnips and rutabagas. Apples, root vegetables, pears, grapes and other fruits in season should be used.

One of the regulars on the vegetable list should be potatoes or sweet potatoes, which are high in food value in relation to their cost. The child should have baked, boiled or mashed—not fried—potatoes once a day.

Teeth are formed from elements in the food, principally calcium and phosphorus salts found in milk, eggs and vegetables. If the diet is deficient in these the child may grow defective teeth which readily succumb to germs always present in the mouth. Use of the diet in chewing food is the best exercise for developing healthy teeth. Certain infectious diseases may effect proper development of children's teeth. For that reason, doctors are recommending that after the child recovers from such an illness, he should be taken to the dentist for a thorough check-up.

This listing of the basic requirements for children—the milk, fresh vegetables, liberal fruit, cereals, cod-liver oil and bread and butter, sounds like "old stuff." Yet in spite of our enormous surplus of food and the amazing variety that we produce, our national diet apparently leaves much to be desired. Lloyd R. Williams of the Connecticut Department of Agriculture declares that nearly half of the young men eligible for the draft are being rejected for physical deficiencies, many of which could be eliminated by eating the proper foods during childhood.

Doctors who have been examining men for military service state that a far larger percentage of American youths are being disqualified for bad teeth than were turned down for this reason in the last war.

Study of these findings in bringing home to many mothers a quickened realization that what they order each day at the grocery store is determining the health of their children tomorrow—and on future tomorrows.

Raspberry Chiffon Pie
1 tablespoon gelatin
2 tablespoons cold water
1 pint fresh raspberries, (crushed and sieved)
1 cup sugar
2 tablespoons lemon juice

Few grains salt
2 egg whites
1 cup heavy cream, whipped
1 baked 9 inch pastry shell

Soften gelatin in cold water and dissolve over hot water. Crush berries and rub through a sieve. Combine crushed berries, sugar, lemon juice and salt. Add gelatin mixture and chill until slightly thickened. Beat egg whites until stiff and fold in whipped cream. Fold in berry mixture. Pie lightly in baked pastry shell. Chill in refrigerator for several hours, or until firm.

Note: In filling this recipe, note that it is excellent with fresh strawberries. Use them crushed and increase lemon juice to $\frac{1}{4}$ cup.

Tuna Baked in Shells

1 (7-oz.) can tuna
1 tablespoon butter
1 tablespoon flour
1 cup milk
Salt and pepper
Paprika
1 bay leaf
 $\frac{1}{2}$ cup bread crumbs
2 hard-boiled eggs, minced
3 tablespoons lemon juice
1 teaspoon Worcestershire sauce
4 tablespoons grated cheese

Flake tuna. Melt butter, blend in flour and add milk and seasonings. Cook until thickened, stirring constantly. Remove bay leaf. Add tuna, crumbs, eggs, lemon juice and Worcestershire sauce. Fill baking shells and sprinkle with extra crumbs and grated cheese. Bake 30 minutes in moderate oven 350 degrees F. Serves 4.

Grapefruit Ice

Quick and easy is this grapefruit ice, recommended with the cold meat course or served on top of fruit cups:

1 No. 2 can Florida grapefruit juice
Juice of $\frac{1}{2}$ lemon
 $\frac{1}{4}$ to $\frac{1}{2}$ cup powdered sugar (see note)

Note: If sweetened grapefruit juice is used, use $\frac{1}{4}$ cup powdered sugar; if unsweetened juice is used, use $\frac{1}{2}$ cup powdered sugar. Mix ingredients thoroughly, pour into trays of automatic refrigerator. Set cold control at coldest point and freeze. Serves 4 to 6.

Breakfast or Luncheon Bracer
1 egg, separated
 $\frac{1}{4}$ cup orange juice (fresh or canned)
1 to 2 tablespoons sugar
Milk

Cinnamon or nutmeg

Beat egg yolk with the orange juice and 1 tablespoon sugar. Pour into a tall glass. Beat egg white very stiff; beat in the second tablespoon sugar unless a less-sweet drink is preferred. Fold three-fourths of egg white into egg yolk and orange juice mixture. Add enough milk to almost fill the glass and top with remainder of beaten egg white. Serve at once, with dash of cinnamon or nutmeg, if desired.

Note: Served in a tall glass with straws, this nourishing and tempting beverage should help solve the luncheon problem for children who must be coaxed to eat in hot weather. Round out the meal with dainty sandwiches and cookies.

Picnic Treats

When you have nuggets of ham that refuse to slice, pop them into sandwich fixings like this: Grind the cooked ham. To 1 cup ground ham, add a few drops of vinegar, 1 tablespoon peanut butter and 1 to 2 tablespoons chopped celery. Spread between slices of buttered bread.

Carry the picnic salad in a screw-top pint or quart jar, the type regularly used for canning. Deviled eggs journey safely in the quart size.

Sandwich tips: Ground tongue takes kindly to minced green peppers. Combine ground roast meat with chopped stuffed olives or with plain ripe olives. Try cucumber with minced bacon and mayonnaise.

To prepare that favorite fragrant beverage outdoors, take ground coffee in a cheese cloth bag, ready to be lowered into cold water in the big picnic pot, not omitting the eggshell to settle the grounds. Bring the water twice or three times to the boiling point depending on the strength you like, remove the pot from the fire each time to let the coffee calm down and you will have a super-drink.

If you like to toast your face and the bread over the fire, cut French bread in thick slices and spread them with creamed butter blended with a savory canane spread before toasting on a pointed stick.

Frankfurter Surprise: Parboil frankies. Split and spread with prepared mustard. In each, place a thin slice of dill pickle. Roll in bacon strips, fasten with toothpicks and broil.

NERVE MESSAGES

It has been found that the electro-chemical impulses by which nerves carry messages from one part of the body to another travel at the rate of 400 feet a second.

STILL COSTLY

Man has learned to make rubies exactly like those produced by Nature, but the process is so complicated the stones are no less costly.

Utah's Salt lake is 70 miles long and 30 miles wide.

PALMER HOUSE TEAM WINS FIRST GAME IN BID FOR THIRD SEMI-PRO CROWN

Kewanee, Ill., July 17.—(AP)—Port Byron or the Moline Merchants, barring a tie game, will be eliminated tonight from the state semi-pro baseball tournament.

These two teams, losers in the first round, will play each other tonight. Two defeats are necessary for elimination in the current championship event. The Kewanee Parkers will meet the Hunter Red Devils of Bloomington in the second game.

The fans saw their second no-hit, no-run game of the meet last night when Harvey Kreps of Hiram Walkers of Peoria held the Sheffield Indians hitless for an 8 to 0 victory in seven innings. No game in this meet can go longer than seven frames if either team has a lead of eight or more runs.

Kreps struck out 14 batters and walked two, his mates sewing up the game with two runs in the first inning.

The Palmer House All-Stars of Chicago, trying for their third title in a row, defeated the Davenport Maroons, 8 to 2, on Lou Saggs' two-hitter. The All-Stars took a one-run lead in the seventh and splurged with five more in the ninth.

As of Jan. 1, states topping the civil pilot list were California, with 8285 certificated airmen; New York with 4863, and Texas with 3918.

NOW A 5-DAY WEEK FOR A&P EMPLOYEES THROUGHOUT THE NATION

Stores Will Be Open Six Days A Week As Usual

Two months ago this company tried the experiment in a few eastern states of a five-day work week for its retail store employees. Now we are able to announce that we have adopted the five-day week as our national policy.

• This, we believe, constitutes the first five-day week and the shortest general working hours of any major retail food establishment.

• This shorter work week will be in effect before Labor Day in A&P food stores in thousands of communities throughout the country. It will be extended as far and as fast as possible. Frankly, however, we must recognize that in a few states and a number of cities the introduction of this policy may be delayed or even prevented by state or local labor regulations or local agreements.

• A&P food store employees affected by this policy will work only five days a week although stores will be open six days a week as usual. Their weekly salaries will not be reduced by their shorter work week. Our policy is to continually improve working conditions and salaries as evidenced by the fact that during the past year alone we have been able to make actual wage increases and to pay added compensation to our employees in an amount totaling more than \$4,000,000.

• Many people are utterly astounded at the new low prices for quality foods in A&P Super Markets. They are getting so much more and better food for the same money that they wonder how we can do it. Frankly, it is simply because A&P Super Markets represent a new, more efficient, more economical way of distributing food to the public.

• This new, shorter week is still further evidence that the tremendous savings you can now make in buying groceries, meats and fresh fruits and vegetables in the great, new A&P Super Markets are made possible by savings through efficiency and that no part of these savings comes out of the wages of our employees.

For many years it has been a source of pride to us that we have been able generally to maintain the highest average wage scale and the shortest general working hours in a field where long hours have been traditional. Since we first cut the work week eight hours in 1916, there has been a long record of further reduction in hours, increases in wages and vacation schedules.

Because our new low prices have resulted in increased patronage, we have been able to further reduce our operating expenses and increase our efficiency and still further improve the working conditions of our employees.

At the same time thousands of families will testify that they buy their foods today at lower average prices in A&P Super Markets than in any group of stores in the highly competitive retail food field. Today, when you spend a dollar in one of our stores, more of that dollar actually purchases food and less of it goes to cover distribution costs and profits than ever before in the history of the food business.

There is no conflict between low prices and good working conditions. We have achieved both by constantly improving methods of bringing food from producer to consumer, cutting

out waste and unnecessary handling operations along the distribution route.

The new A&P Super Markets have made possible savings so astounding that we would not have believed them possible five years ago. This year we are paying the highest wages for the shortest work week in the history of the food business and yet our customers throughout the country will save more than \$50,000,000 on the food they buy as compared to the lowest prices we could charge on the basis of our own operating expense only five years ago.

We are more than ever conscious, in these unusual times, of an obligation to make every possible contribution to the American standard of living. We know that we are making it possible for the average family to buy more good food for the same money, or to buy the same quantity of food for less money.

We are happy to tell you that you can enjoy these savings with the knowledge that the people who serve you in our retail stores are sharing more than ever before in these good things. This means a better standard of living for you and for those who serve you.

This plan will necessitate slight adjustments in store hours which will be announced locally. We respectfully ask our customers for their cooperation and assistance in making this new schedule a success.

Cottage Hill Reunion

The Cottage Hill reunion held every two years, was a big success. The reunion is for all the pupils graduates, and teachers of the old Cottage Hill school and was held on Sunday, July 13, at the city park in Paw Paw. A very good number were on hand to enjoy the delicious pot luck dinner and the fine program given. The committee in charge of picnic plans for this year was: Gustave Englehart, chairman, Roy Blee, Mrs. John Kaiser and Mrs. Alfred Kern. The committee should be given special mention for the arranging of a fine program and taking care of the many other matters for the event. After the dinner the crowd enjoyed a social period after which the program was presented.

Miss Elaine Schlesinger played several guitar selections and also rendered vocal solos. Miss Helen Volkert gave a most interesting reading, after which Lois Tarr played two beautiful selections on the accordion. Mrs. Helen Truckenbrod and Mrs. John Kaiser, assisted by Edith Bader, entertained the audience with a short skit. The climax of the program took place when Chairman Englehart introduced the speaker for the occasion, L. W. Miller, former county superintendent of Lee county schools, from Dixon. Mr. Miller in his usual way, gave a most interesting and timely address.

At the business session the vote was to hold another such reunion. The next get-together will be the second Sunday of July, 1943, at the city park in Paw Paw. Other business matters were taken care of and the committee appointed for the 1943 event. Those appointed were: Chairman, William Shaddick; George Englehart, Mrs. George Efferding and Mrs. William Hof.

Those from out of town attending the reunion were: Mrs. Ale Halbo of Waterman; Mr. and Mrs. Carl Bryant; Mrs. and Mrs. J. R. Moore and daughter Shirley, Mrs. Mary Gallisath and son Veri and Fred Schlegel of Rockford; Miss Mary Englehart, Mr. and Mrs. John Hoelzer, Sr., Mr. and Mrs. C. J. Bader and son Donald, Mrs. Jennie Larkin, Rosina Wilhelm, and Lewis Wilhelm of Mendota; Billy Nickle of Zealring; L. W. Miller of Dixon; Oscar Englehart, Mr. and Mrs. Albert Bauer, Mrs. Louise Bauer of Compton; Hattie G. Weier and son Robert of Ft. Atkinson, Wis.

Beach Family Picnic

On Sunday, July 13, the annual Beach family reunion was held at Phillips park in Aurora with a good number in attendance. A picnic lunch was held at noon after which the members of the family enjoyed the usual social time. Those attending the reunion were: H. G. Beach, Miss Atta Beach, and Mr. and Mrs. E. N. Gibbs and son Charles of Paw Paw; Mr. and Mrs. William Pentzer, Sr., and Mr. and Mrs. William Pentzer, Jr. and nephew Teddy Phipps of Sycamore; Mrs. Corcoran, Miss Joyce Corcoran, and Mr. and Mrs. Martin Pentzer and daughter Connie of New Orleans, Louisiana; Mr. and Mrs. William C. Beach and daughter Eleanor of Bloomfield, New Jersey; Mr. and Mrs. S. G. Tarr and daughter Marian of Whiting, Ind.; and Martin Luther of Oelwein, Iowa.

The following guests were week end visitors at the Emil Manahan home: Mr. and Mrs. Owen Manahan and daughter of Geff, and Otis Manahan of Wayne City. Mrs. Inez Rafferty entertained the members of the Presbyterian Missionary Society today. Mr. and Mrs. James Donaldson attended the Carter family reunion on Sunday at the old Hurricane grove south of Fillmore. Mr. Donaldson states that in that part of the country the crops look fine and they have received many rains that the farmers here need badly.

Leonard Smith of Cedar Rapids, Iowa, who had been visiting his sister, Mrs. Gertie Smith at Paw Paw, returned to his Iowa home on Sunday.

Plum Hollow Golfers to Play in "Flag Race" Tourney

EACH PLAYER IS GIVEN A QUOTA OF GOLF STROKES

Members Will Tee Off At 8 O'clock on Sunday Morn

Golf, it seems has as many varieties as the Heinz products, and now Plum Hollow comes fourth with the announcement of a novel "flag race" event for Sunday. Em Rorer, sports chairman at the public links, has figured out a method of handicap on the basis of scores made on 18 holes this season and given each member a total number of strokes. With these strokes he is to get as far as he can around the Plum Hollow course starting Sunday morning at 8 o'clock. It's a fair method for all, as each player is given the number of strokes best suited to his talents. Each player will drive in a wooden "claim stake" at the end of the line.

Prizes of golf balls are to be given for the first three winners with the longest distances and another prize will go to the fellow who lags behind.

The golfers and their quota of strokes are as follows:

ZUPPKE HAS TOUGH YEAR AHEAD OF HIM

By EARL HILLIGAN

Chicago, July 17.—(AP)—Building of a line strong enough to stop the charges of such machines as Minnesota, Michigan and Northwestern—to name only three teams on a difficult schedule—will be Bob Zuppke's biggest job next September when he starts molding what may be his last Illinois football team.

The 62-year-old coach, reappointed for another year by the Illini trustees, must get a break in the development of 1940 reserve linemen and sophomore forwards if he is to do better than with the 1940 season which saw his club lose seven out of eight games.

"Zup's" job will be a tough one. He'll buck a schedule opening with Miami (Ohio) University, and producing games, in order, with Minnesota, Drake, Notre Dame, Michigan, Iowa, Ohio State and Northwestern.

The big Illini losses were Tom Riggins at tackle, George Bernhardt at fullback, Ralph Ehni at quarter, and Jim Phillips and Bob O'Neill at the ends. On the bright side, Ken Cheeley is expected to come through as a fine center and big things are expected of Bob Wilson, a sophomore tackle. The guards probably will be fair offensively and not too good on defense.

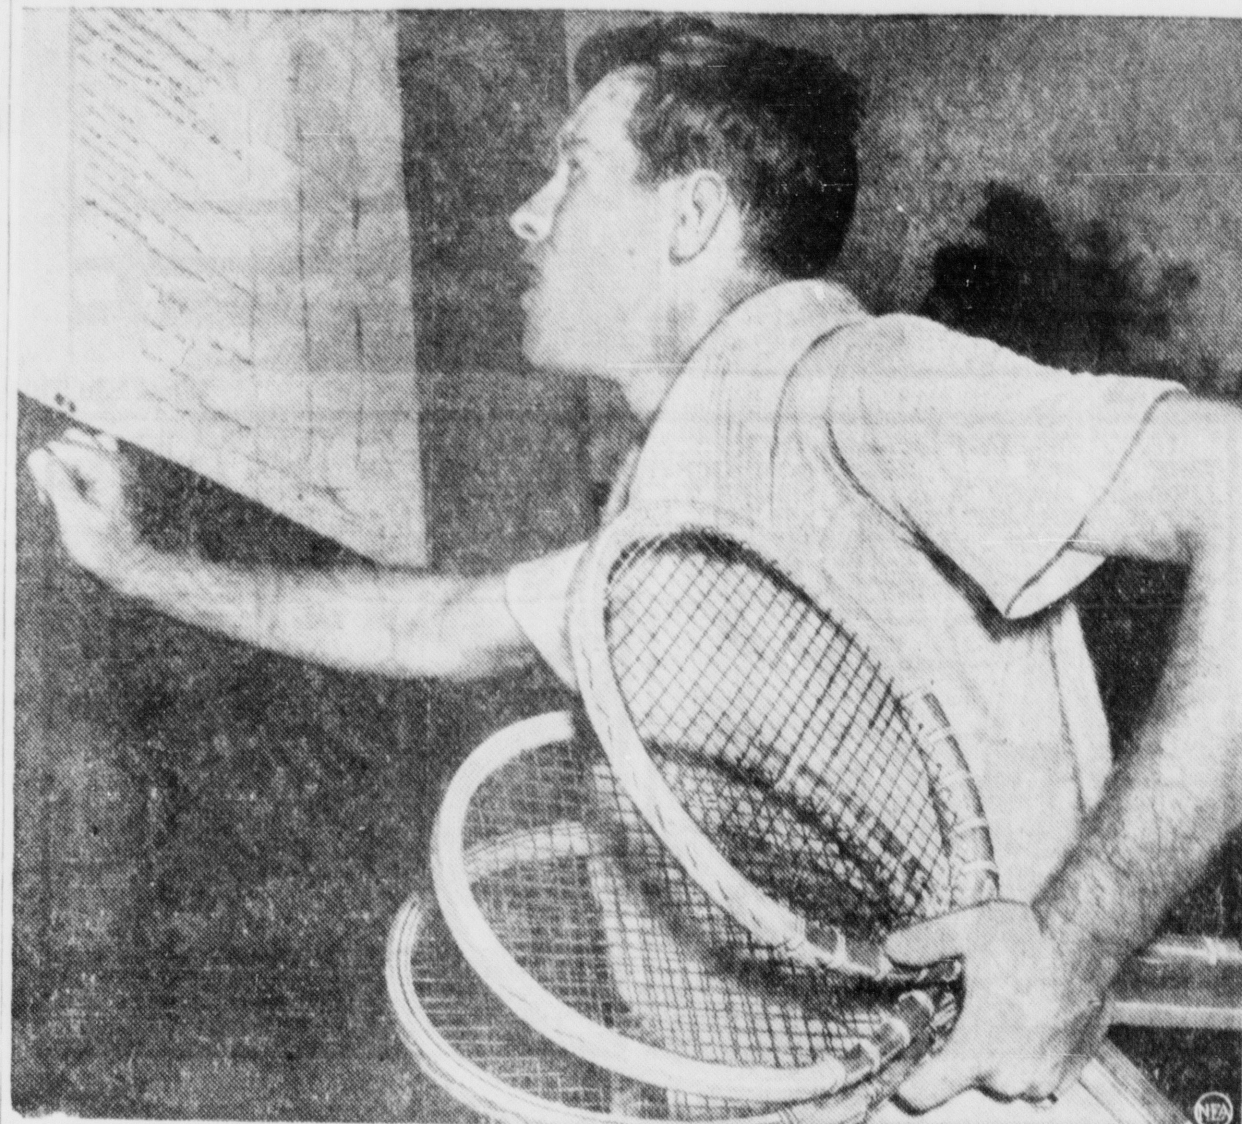

Potentially Effective
Potentially the backfield could be a fast and effective one. Much is expected of Don Griffith, sophomore back from Chicago, and a sophomore fullback from Lincoln, Ill., Buck Borell, who may be the best punter and fastest man on the squad. Jimmy Smith, star of Illinois' 1939 upset of Michigan, will be back after being out with injuries in 1940, while Dick Good likely will do the passing. He competed 10 of 11 throws against Wisconsin last season.

Zuppke, producer of many great teams and stars, has come up with many surprisingly strong teams in years when material was not too strong. He could do it again this fall. A brilliant showing by Illinois would carry a lot of weight into next winter's conference between "Zup" and university authorities—a conference which must be held by next March 1 and one which will decide Zuppke's future at Illinois.

Wendell S. Wilson, dismissed as athletic director Tuesday, has returned to his Wyoming ranch. Next Tuesday, the trustees are scheduled to meet here to pass on President A. C. Willard's nominations for the new Illinois seven-man athletic board.

One-quarter of all the radio sets in the U. S. are operated with battery current.

It's a Hard Road

Donald McNeill isn't worrying about four successive defeats, two each by Robert Ruggs and Frank Parker, on the summer swing.

The national singles champion figures it doesn't really count until the caravan hits the grass courts. Donald McNeill, the belting blond, believes he will retain his national title at Forest Hills, Aug. 30-Sept. 6, but he won't be unduly annoyed if he loses it.

The sturdy Oklahoma City boy expects to be in the army by late fall. His draft board is nearing his number, 23,000, and he anticipates 1-A classification. He is 22 and has no dependents.

Yankees Appear Likely to Smash to Loop Triumph

By JUDSON BAILEY
ASSOCIATED PRESS SPORTS WRITER

The latest report on the major league races is that they probably are going to follow the same pattern that everybody was accustomed to before last year.

The powerful New York Yankees are on the verge of running away from the rest of the American League while the National League is in the throes of another one of those struggles that very likely may last down to the finish.

The Bombers from the Bronx blasted out a 10-3 victory over the Cleveland Indians yesterday in the first tussle of their three game clash and cleared up most of the doubt about their being the best club in the league.

With Joe DiMaggio hitting a double and two singles to stretch his hitting streak to 56 consecutive games, the Yankees rode to their eighth triumph in 11 games against the Indians this season and increased their first place margin to six full games.

On the other hand the Brooklyn Dodgers, who had a chance to bottle up the senior circuit just as completely, were raided 7-4 by the St. Louis Cardinals and had their lead cut to three games last night.

Cards Conquest Is Surprise
The Cardinals' conquest was a surprising and as deafening as an explosion for the 32,265 fans at Ebbets field. In the first four innings Whitlow Wyatt did not allow a hit and his nates raced away to a 4-0 lead.

Then the pitching ace of the National League collapsed. He gave up two runs in the fifth and in the sixth he couldn't get anybody out. He permitted four successive singles before being removed and the Cards went on to score five runs.

The New York Giants staved off the Cincinnati Reds' threat at third place in the senior loop by whipping Bucky Walters 7-4. Gabby Hartnett hit two doubles, one with the bases loaded in the first inning, and Dick Bartell had a perfect day at bat with three singles and batted in three runs.

Divide Doubleheader
Pittsburgh and Boston divided a doubleheader. Jim Tobin pitching the Braves to a 4-1 triumph in the first game and the Pirates rallying with seven runs in the seventh inning of the nightcap to win 13-5.

The Chicago Cubs captured a 9-5 decision over the Phillies in their night game. Charley Root gathering in the 198th triumph of his career although needing help. He also contributed a home run to his own cause.

In the other American League games the Boston Red Sox edged out the Chicago White Sox, 2-1, and the St. Louis Browns overpowered the Philadelphia Athletics, 11-2.

REISER'S STREAK ENDS
New York—In a game in which Brooklyn made 10 hits and won, 8-3, Pete Reiser's consecutive-game hitting streak was snapped at 18 by three Cincinnati pitchers: Johnny Vander Meer, Whitey Moore and Joe Beggs.

Domestic electric flat irons sold in the U. S. in 1940 totaled 5,171,000 as compared with 2,363,500 in 1930.

UNITED CIGARS ELIMINATED IN DEKALB TOURNEY

Aurora Pitcher Holds the Locals To Only Two Hits

Holding the Dixon United Cigars softball team to only two hits, Pitcher Chambers of the Phoenix club of Aurora eliminated the locals from the current Dekalb Invitational tournament last night, 8 to 0.

Bob Coakley got the first hit for Dixon when he clouted a triple in the sixth inning with one out. Deets and D. Spinden who followed him at the plate each struck out to end the scoring threat.

In the seventh frame Bus Carlson followed R. Spinden's strike out with a single. Shires Miller and Curlee each whiffed to end that scoring possibility.

Extra base hits for the winners included two doubles by Jungels and one by Zaha. Pitcher Chambers got a home run in the fourth inning with none aboard.

Chambers' mound record include 18 strike outs and he walked only two. Deets pitched two innings for the United Cigars and gave off two hits, walked none and struck out none. In four innings Woodvatt allowed seven hits, walked two and fanned seven.

YESTERDAY'S STARS

Gabby Hartnett and Dick Bartell, Giants—Former hit double with bases loaded in first inning to spark four-run blast and latter drove in three runs with three singles in perfect day at bat against Reds.

Joe DiMaggio, Yankees—Led assault on Indians with double and two singles to stretch his hitting streak to 56 consecutive games.

Jim Tobin, Braves, and Ed Stewart, Pirates—Former won first game steady eight-hit pitching and latter made four hits and four runs in top 13-run attack.

Tex Hughson, Red Sox—Stopped White Sox with four-hit hurling.

Chet Laabs, Browns—Hit two home runs, triple and double for perfect day at bat to beat Athletics.

Lon Warneke, Cardinals—Provided fine relief pitching, three singles in six innings, for victory over Dodgers.

Charley Root, Cubs—Hit home run and chalked up 198th triumph of long pitching career although needing relief against the Phillies.

tourney favorite, is young Jimmy Clark, of Long Beach, Calif., who continued to match the torrid weather with a brand of golf just as hot.

Today Clark tees off against Jerry Anderson, Worcester, Mass., insurance salesman who has been touring the Indian Canyon links around par figures.

Korns plays Bob McReynolds of Portland, Ore., a truck driver who has been having a hot streak of his own the last two days.

When the firing is over there will be only four contestants left. Today they play two 18-hole rounds, carrying the brackets down to the semi-finals.

Jimmy Clark had to rely on subpar golf to squeeze through against a couple of toughies yesterday, and when the shooting was all over the youngster had defeated Charlie Barnes of Atlanta, Ga., 2 and 1, and scored a 1 up victory over Leslie Leal of Bellingham, Wash.

The other Clark, regarded as the

George Halas of the Chicago Bears, who ought to know, says a football player doesn't reach his peak until he is 27.

TODAY'S GUEST STAR—

Bill Shirley, Little Rock Democrat: "Buck Newsom should worry about the draft... With such minor defects as bad teeth, poor vision, flat feet and wooden heads barring major league stars, Bobo will be a cinch when the docs discover that glass arm."

Arthur Donovan is as good as signed to play the referee role in Billy Conn's forthcoming flicker, (Conn's Hollywood salary, by the by, is \$1,200 per diem which causes you to wonder if it's the fighters or the producers who are punch drunk)... SON OF MAN O' WAR LOOMS AS THREAT TO WHIRLAWAY

Boston, July 17-(AP)—After jumping overnight from obscurity, a speedy son of the famous Man O' War, the three-year-old Chestnut War Relic, today ranked as a worthy challenger for Whirlaway, that division's triple champion, much to the surprise and delight of his owner, the venerable Samuel D. Riddle.

War Relic, rated as one of the rankest of the outsiders when he and eight more famous rivals went postward for \$50,000-Massachusetts Handicap yesterday, lost little time proving himself one of the outstanding stake performers of the season.

As he defeated William Woodward's Foxbrough, one of the best of the five-year-olds in training, by three-quarters of a length, War Relic lowered the Suffolk Downs' mile and an eighth record by a fifth of a second, to 1:48 3-5.

This new Riddle star also was clocked enroute a fifth second under the track's mile record of 1:36.

EVANSVILLE, CEDAR RAPIDS LOSE CHANCE TO GAIN IN DOGFIGHT FOR TOP SPOT

By The Associated Press
Evansville and Cedar Rapids, the 1-2 teams in the Three Eye League, both lost an opportunity last night to gain ground in their dogfight for the top spot.

Waterloo's basement club trounced Evansville, 10 to 5, with an 11-hit attack on Kilmer and Hazel. The Iowans amassed seven runs in the first two frames and coasted to an easy triumph.

Cedar Rapids fell before Moline's seventh-place club in 13 innings, 4 to 3. The Raiders got 10 hits to Moline's eight.

Decatur defeated Madison, 8 to 3, and Springfield clipped Clinton, 4 to 3, with a three-run rally in the eighth inning after tying the game in the seventh.

CHICAGO OPEN GOLF MEET WILL BEGIN TOMORROW

Chicago, July 17-(AP)—Professional golfers, stars and unknowns alike, swarmed into town today for a shot or two at the \$1,200 first prize in the \$5,000 Chicago Open beginning tomorrow at Elmhurst Country club.

A field of 200 will tee off tomorrow for the first round of 18 holes. The second round will be played Saturday, qualifying the 48 low professionals and 24 low amateurs for the 36-hole stretch drive Sunday.

Leading the contenders for the cash awards are Craig Wood, National Open champion; Vic Ghezzi, newly-crowned P. G. A. champion, defending champion Dick Metz and Ben Hogan, leading money winner and pacesetter for the Vardon trophy.
